ELWELL
NEWS

Gathered by Our Own Hustling Staff Correspondent.

Side walks should be built on the east side of the street north of the railroad track, and on the west side south of the track. Be progressive enough to have a walk in front of every home in Elwell. This should be done. It not only advances the price of your property but helps to build up your village.

Charles Slingluff is to have a new walk built in front of his home this week, who's next?

Mac Langworthy while trimming apple trees slipped and fell about 15 feet, injuring him quite seriously. Dr. Lamb of Alma was called and found no bones broken. Mr. Langworthy is quite an aged man to receive such a hard fall, but we hope for his speedy recovery.

Mr. and Mrs. Cleo Dunis were Sunday guests of Mr. and Mrs. Herman Fisher.

The object of each and every person should be towards public improvement, and seek ways and means to better the conditions of Elwell. The new cement walk built in front of the Maccabee hall is a credit much needed building at this place as it is used for all purposes and the people of this vicinity should appreciate it. It being the only hall that elections, etc., can be held in.

What Do You Know About The Maxwell Car?

THIS is the time of the year when more people are considering the question of "what car to buy" than at any other time of the year.

This community has its full share of people who will soon be driving their first car or a new car to replace the old one.

Now, we know that we are going to sell Maxwell Cars to a great many of these people—depending upon how many we are able to acquaint with the merits of the Maxwell.

The generous value offered in the car is so evident—its past record is so full of good performance—owners speak so well of it—that when the buyer knows these things, he is eager to buy a Maxwell.

In order to tell as many people as possible about the merits of the Maxwell Car we are going to spend a lot of money in the next few weeks in this paper advertising Maxwell merits to those who do not know them.

The reason—we want to sell as many Maxwells as possible this season. Our future allotments will depend upon how many Maxwells we sell now.

You may know that the Maxwell market is a buyer's market, not a seller's market—broadly speaking. The demand for Maxwells the country over is greater than the supply.

For this reason cars are allotted to dealers by the factory according to the size of the dealer's business.

We want to make a showing and be in a position to get a generous allotment of Maxwells hereafter. Because the more Maxwells are sold in any community, the greater is the future demand. We realize the opportunity to do an ever-increasing Maxwell business.

This is only the first of the several messages we are going to print—a few days apart—concerning the Maxwell Car. But we don't expect to be able to adequately present Maxwell merits in printed words alone.

If you are one who is going to buy a new car you will find it decidedly to your advantage to find out all you can about the Maxwell before you place your order.

Come in and talk it over with us and let us demonstrate the car to you. Then, don't take our word alone, but ask those who now own Maxwells.

Get "posted" about the Maxwell and you will realize more satisfaction and get more "value received" for your motor car money than ever before.

And we are just as willing to have you investigate other cars just as fully as you do ours. The Maxwell will not suffer by the comparison.

Why not start your Maxwell investigation today?
